

# AARURAN INFRA & VENTURES LLP

*Delivering Integrated Water Treatment & Infrastructure Solutions*

**Company**  
**PORTFOLIO**  
**2026**

*Engineering Sustainable  
Water Systems for Industry  
& Infrastructure*

Manufacturer of :

**STP | ETP | WTP | ZLD |  
OWC | HVAC | VES |  
Recycling | O&M | EPC**

**Design • Build • Operate • Optimize**

**Delivering compliant, energy-efficient, and future-ready environmental solutions.**

**+91 8807707766 | + 91 8553664215**

# COMPANY PROFILE ..

Aaruran Infra and Ventures LLP is a professionally driven engineering company delivering end-to-end water, wastewater, and environmental infrastructure solutions for industrial, commercial, and infrastructure sectors.

## Our capabilities span the entire project lifecycle:

Process Design  
Engineering

Manufacturing  
& Supply  
Coordination

Civil, Mechanical  
& Electrical  
Execution

Automation  
& Control  
Systems

Commissioning  
& Performance  
Stabilization

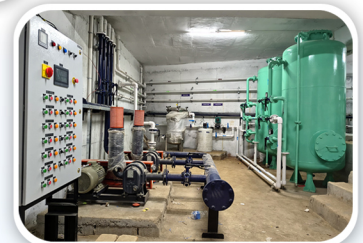

Long-Term  
Operation &  
Maintenance

We specialize in high-performance, application-specific systems engineered for maximum water recovery, low operating cost, energy efficiency, and statutory compliance.

## Solution Portfolio

- Sewage Treatment Plants (STP)
- Effluent Treatment Plants (ETP)
- Water Treatment Plants (WTP)
- Water Recycling & Reuse Systems
- Zero Liquid Discharge (ZLD) Solutions
- High Purity & Process Water Systems
- Sludge Handling & Dewatering Systems
- Treatment Plant Ventilation & Exhaust Systems
- Organic Waste Converter (OWC) Systems

## MISSION...

Deliver sustainable environmental solutions through intelligent engineering and integrated execution.

- Improve operational efficiency
- Promote responsible water & waste management
- Ensure reliability & regulatory compliance
- Build long-term customer partnerships

## Sustainability Commitment

We design environmentally responsible systems that:

- Reduce freshwater consumption
- Maximize reuse & recycling
- Minimize energy usage
- Improve workplace safety & hygiene
- Support long-term ecological balance

# TECHNOLOGIES & ENGINEERING CAPABILITIES...

## Core Capabilities...

### Water & Wastewater Treatment

- Sewage Treatment Systems
- Industrial Effluent Treatment
- Water Recycling & Reuse
- Process & Utility Water Treatment
- Zero Liquid Discharge (ZLD)
- Pilot & Demonstration Plants

### Environmental & Utility Infrastructure

- RCC Tanks & Foundations
- Piping Networks & Pump Rooms
- Mechanical Installation
- Electrical, Instrumentation & Automation
- Ventilation & Exhaust Systems for Treatment Plants

## Technologies Offered...

### Pre-Treatment

- Screening & Equalization
- Oil & Grease Separators
- Tube Settlers & Lamella Clarifiers

### Filtration

- Pressure Sand Filters
- Activated Carbon Filters
- Multimedia & Iron Removal Filters

### Biological Treatment

- SBR (Sequential Batch Reactor)
- MBBR (Moving Bed Bio Reactor)
- SBBR( Sequential Batch Biofilm Reactor)
- AEBR Bio-Digestors
- ASP(Activated Sludge Process)

### Membrane Systems

- MF / UF / NF
- Reverse Osmosis (RO)
- Membrane Bio Reactor (MBR)

### Sludge Handling

- Filter Press
- Sludge Drying Beds
- Centrifuge & Dewatering Systems

## Polishing & Disinfection

- Ion Exchange & EDI
- Condensate Polishing Units
- UV, Ozonation & Chlorination

## Services

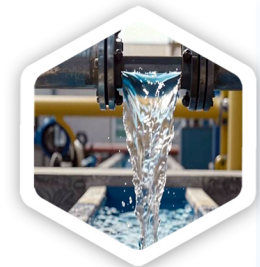

- Turnkey EPC Execution
- Operation & Maintenance (O&M)
- Annual Maintenance Contracts (AMC)
- Plant Audit & Performance Improvement
- Retrofit, Expansion & Upgradation
- Automation & Remote Monitoring
- Spares & Consumables Supply
- Ventilation System Design, Supply & Installation

## SYSTEMS & INDUSTRIES...

### Systems Supplied

- Water Treatment Plants (WTP)
- Sewage Treatment Plants (STP)
- Effluent Treatment Plants (ETP)
- Water Reuse & Recycling Plants
- Zero Liquid Discharge Systems
- High Purity Water Plants
- Modular & Packaged Treatment Plants
- Chemical Dosing Systems
- Organic Waste Converter (OWC) Systems
- Treatment Plant Ventilation & Exhaust Systems

## Industries Served

- ✓ Pharmaceuticals
- ✓ Power Plants
- ✓ Textile & Dyeing
- ✓ Food & Beverage
- ✓ Automobile & Engineering
- ✓ Chemical & Process Industries
- ✓ Electronics & Manufacturing
- ✓ Infrastructure, Townships & Campuses
- ✓ Hospitals & Institutions

## WHY AARURAN INFRA AND VENTURES LLP

- ✓ Strong Engineering & Process Expertise
- ✓ Customized, Application-Specific Solutions
- ✓ Compliance-Focused Design Approach
- ✓ Energy-Efficient & Low-OPEX Systems
- ✓ Integrated Water, Waste & Air Solutions
- ✓ Reliable Project Delivery
- ✓ Dedicated After-Sales Support
- ✓ Long-Term Partnership Mindset
